

# CAT'ARC CHOICE GUIDE

## SIZE EQUIVALENCE

- A** CHEST SIZE: Measured at the strongest point, maintaining the measuring tape in horizontal position.
- B** WAIST SIZE: Measured under the navel, keeping the measuring tape in horizontal position.
- C** BASIN SIZE: Measured at the strongest point of the hips, keeping the meter horizontal position.

### JACKET AND SWITCHING JACKET

Size to order	XS	S	M	L	XL	2XL	3XL	4XL	5XL
A - Maximum chest size (cm)	90	94	98	101	105	109	113	117	121
C - Maximum pelvis size (cm)	92	94	98	102	106	110	113	117	121

The chest measurement defines the size of the garment. If the measurement around the pelvis is less than or equal to the measurement given in the table, then the size is confirmed. Otherwise, take one size larger.

### TROUSERS

Size to order	XS	S	M	L	XL	2XL	3XL	4XL	5XL
C - Maximum pelvis size (cm)	90	94	98	102	106	110	113	117	121

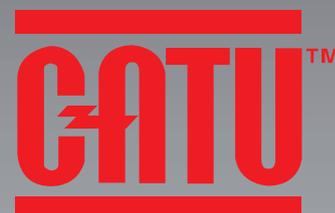

### SWITCHING JACKET

Size to order	XS	S	M	L	XL	2XL	3XL	4XL	5XL
A - Maximum chest size (cm)	90	94	98	101	105	109	113	117	121
B - Maximum waist size (cm)	92	96	100	104	108	111	115	119	123
C - Maximum pelvis size (cm)	102	106	110	113	117	121	125	129	133

The chest measurement defines the size of the garment. If the measurement around the pelvis is less than or equal to the measurement given in the table, then the size is confirmed. Otherwise, take one size larger.

For Arc Flash clothing with higher levels of protection (25/40/65/100 cal / cm<sup>2</sup>), please contact our Commercial Department.
