

MP-S-3...

Insulating mat Class 3 - 2 x 1 m with delineation and instructions

Description :

Application :

- Insulating mat for live and dead work. Maximum operating voltage: 26 500 V AC - 39 750 V DC.
- Used to cover the floor for the electrical protection of operators in electrical installations.
- Protect the workers from the ground potential.
- Must be adapted to the nominal voltage of the network supplying the installation on which it is used.

Features :

- In accordance with IEC 61111:2009 standard and to specific properties of the "C" Category (extremely low temperature folding test at -40°C).
- RoHS2 compliant. REACH compliant (SVHC free).
- Safety delineation frame and instructions for use printed on the top side.
- Material: elastomere without halogen.
- Unit test in production.
- QR code on marking band with direct link to user guide and technical sheet.
- Storage temperature: $+10^{\circ}\text{C}$ to $+21^{\circ}\text{C}$.
- Operating temperature: -40°C to $+55^{\circ}\text{C}$.
